PROFILE SUMMARY

AI Developer and Full Stack Software Engineer with around 2 years of experience developing AI-powered recruitment platforms, Applicant Tracking Systems (ATS), enterprise web applications, and intelligent automation solutions. Experienced in Java, Spring Boot, Python, React.js, FastAPI, SQL, REST APIs, Docker, WebSockets, AI integrations, and cloud deployment. Strong expertise in building scalable backend systems, responsive frontend applications, resume parsing, AI interview automation, and production-ready software solutions. Passionate about leveraging Artificial Intelligence and modern software engineering practices to build innovative products that solve real-world business problems.

SKILLS

Backend: Java, Spring Boot, Spring MVC, Spring Security, REST API Design, RESTful APIs, Microservices Architecture, JPA, Hibernate

Frontend: React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Database: MySQL, PostgreSQL, MongoDB, Database Design

Security: JWT Authentication, Refresh Tokens, CSRF Protection, Role-Based Access Control (RBAC), Spring Security

Cloud & Deployment: GCP (Cloud Run), DigitalOcean, GitHub Actions, CI/CD

Tools & Collaboration: Git, GitHub, Postman, Swagger, Jira, SonarQube

AI & Integrations: Generative AI, OpenAI Integration, LangChain, LangGraph, Retrieval-Augmented Generation (RAG), AI Automation, Deepgram (STT/TTS), AssemblyAI

Practices: Agile, SDLC, System Design, API Architecture, Debugging, Code Review

EXPERIENCE

iFocus Systec India Pvt. Ltd., AI Developer

Jan 2026 – Present

QwikHire ATS

AI-powered Applicant Tracking System designed to automate recruitment, candidate screening, and interview workflows.

- Developed AI-powered recruitment modules including resume parsing, candidate screening, interview scheduling, and recruiter dashboards.
- Designed and implemented scalable backend services using Java, Spring Boot, and Python FastAPI.
- Built AI Interview Copilot with dynamic interview question generation and real-time candidate evaluation.
- Integrated REST APIs, WebSockets, and AI services for intelligent recruitment automation.
- Developed secure authentication and authorization using Spring Security and JWT.
- Worked with Docker, Git, CI/CD pipelines, and cloud deployment for production environments.
- Collaborated with frontend, QA, and product teams to deliver enterprise-scale recruitment solutions.

ValidProfile PV Groups, Software Developer Consultant

Aug 2024 – Dec 2025

ValidProfile Platform

AI-powered career development platform providing ATS, resume building, interview preparation, and job discovery solutions.

- Developed full-stack web applications using Java, Spring Boot, React.js, JavaScript, and MySQL.
- Built Applicant Tracking System (ATS) modules for recruiters and job seekers.
- Developed AI Resume Builder, ATS Resume Score Checker, and Resume Parser modules.
- Implemented authentication, authorization, profile management, and recruiter dashboards.

- Developed REST APIs and integrated frontend applications with backend services.
- Participated in requirement analysis, client discussions, production deployments, testing, and bug fixing.
- Optimized application performance and improved overall user experience across multiple modules.

PROJECTS

QwikHire ATS – AI Recruitment Platform

iFocus Systec India Pvt. Ltd.

AI-powered Applicant Tracking System (ATS) that automates recruitment workflows, candidate screening, interview management, and recruiter analytics.

- Developed an AI Resume Parser for extracting candidate information and automating profile creation.
- Built AI-powered candidate screening and resume ranking based on job descriptions.
- Developed an AI Interview Copilot with dynamic interview question generation and real-time candidate evaluation.
- Designed scalable backend services using Java, Spring Boot, Python FastAPI, REST APIs, and WebSockets.
- Deployed production-ready services using Docker, Git, and cloud infrastructure.

KareerGrowth – AI Career Development Platform

Freelance Project

Comprehensive AI-powered career platform helping job seekers build resumes, generate cover letters, optimize LinkedIn profiles, discover jobs, and prepare for interviews.

- Developed an AI Resume Builder with ATS-friendly resume generation.
- Built AI-powered Cover Letter Generator, Achievement Builder, and Impact Story Builder.
- Developed a Job Discovery platform with LinkedIn networking features.
- Implemented AI Interview Preparation with personalized interview questions.
- Integrated React.js, Material UI, Java Spring Boot, Python AI services, MySQL, and REST APIs.

InterviewMitra – AI Interview Platform

Real-time AI-powered interview platform providing intelligent interview assistance, speech analysis, proctoring, and automated evaluation.

- Developed an AI Interview Copilot providing real-time interview assistance.
- Built dynamic interview question generation and AI-based candidate evaluation.
- Implemented speech-to-text analysis, resume parsing, and automated performance reports.
- Integrated WebSockets for real-time communication and interview sessions.
- Built an interactive React.js frontend with a FastAPI backend and AI services.

EDUCATION

SEA College of Science, Commerce and Arts, Bengaluru

2022 – 2024

- **Master of Computer Applications (MCA)**
- **CGPA: 8.09/10**

Government Degree College, Yadgir

2019 – 2022

- **Bachelor of Science (Computer Science)**
- **CGPA: 7.02/10**

INTERESTS

Problem Solving: Practicing coding and improving logical thinking

Learning New Technologies: Exploring tools and frameworks

Building Projects: Developing small applications for practical learning

Tech Trends: Staying updated with latest developments
